

Round: 10B

1. Human populations benefit from the ecosystem services provided by river deltas. Identify three (3) benefits for humans. (6 pts)
2. Name four (4) human-induced changes that have impacted deltas worldwide and describe the impact of each change. (8 pts)
3. Name three (3) U.S. rivers that flow into the Gulf of Mexico whose deltas display some or all of these impacts. (6 pts)
